- **Team clay character sculpting challenge:**

A fast-paced, hands-on challenge designed to get everyone creating, collaborating and thinking on their feet. Each participant is given an array of different clay colours, and 4 minutes to start sculpting their own character. When the time is up, everyone moves to the chair next to them and continues sculpting a teammate’s character. Every 4 minutes, the participant move to the next table so everyone gets the chance to add their own creative touch to 4–5 different characters. After 20 minutes, all the finished creations are brought together for the team to admire, (usually laugh), and talk about. The result is a wonderfully unexpected collection of characters, shaped by the whole team.

THE EXPERIENCE IN DETAIL:

- Everything from ‘PACKAGE #2’ is included
- plus an additional:
- **Team screening of final films/clips**

Everyone will come together at the end to watch their stop motion creations on screen. A shared finale that creates a moment of connection, laughter and celebration.
